AI Insights & Recommendations

AI-powered client-ready insights

AI Executive Summary

Overall campaign performance improved during this reporting period. Leads generation and acquisition cost trends indicate better campaign efficiency, while engagement should be monitored closely. Revenue tracking is currently unavailable, so profitability analysis will become more accurate after revenue mapping is enabled.

AI Recommended Actions

Priority 1

Enable revenue tracking so profitability and ROI recommendations are available.

Priority 2

Improve the highest-volume campaign before increasing spend.

Priority 3

Pause or optimize New Audience Leads campaign before allocating additional budget.

Priority 4

Upload Google Ads or other platform data for stronger cross-platform comparison.

Campaign Highlights

BEST PERFORMING

New Audience Leads cam...

Best lead quality and acquisition efficiency.

NEEDS REVIEW

New Audience Leads cam...

This campaign has the weakest efficiency during the selected period and should be reviewed before additional

Priority Focus

Revenue tracking should be enabled to unlock profitability analysis and ROI recommendations. Once mapped, future reports can identify which campaigns deserve more budget.
