AI Insights & Recommendations

AI-powered client-ready insights

AI Executive Summary

Leads totaled 138 from INR 16,949.12 spend. Previous-period comparison is unavailable because only one valid reporting period is present. Revenue tracking is currently unavailable, so profitability analysis will become more accurate after revenue mapping is enabled.

AI Recommended Actions

Priority 1

Enable revenue tracking so profitability and ROI recommendations are available.

Priority 2

Scale 10% Leads campaign because it currently has stronger acquisition efficiency.

Priority 3

Pause or optimize Carousel Leads campaign before allocating additional budget.

Priority 4

Upload Google Ads or other platform data for stronger cross-platform comparison.

Campaign Highlights

BEST PERFORMING

10% Leads campaign

Best lead quality and acquisition efficiency.

NEEDS REVIEW

Carousel Leads campaig...

This campaign has the weakest efficiency during the selected period and should be reviewed before additional

Priority Focus

Revenue tracking should be enabled to unlock profitability analysis and ROI recommendations. Once mapped, future reports can identify which campaigns deserve more budget.
